

## SKZ163 Dry Heat Treatment Tester

-- Flat-plate Pressing

Used for evaluating the variation of size stability and other relevant capacities of fabrics, fusible and hot-melt bonded linings after dry heat processing.

### Relevant Standards

GB/T17031.1-2, GB/T8632, FZ/T01076/01082/01085, ISO9866-1-2

### Technical parameters

Working pattern	controlled by micro-soft computer, results are printed
Temperature range	room temperature -300°C±2°C
Testing time	1-900S
Pressing hot plate area	320X320mm
Testing pressure	0.3Kpa
Power source	AC220V±10% 50Hz 3KW
External dimensions	430X520X220mm
Weight	50kg
