

SKZ167 Taber Abrasion Tester --(Taber type)

Used for testing abrasion resistance of all fabrics, leathers, carpets, rubbers, plastic sheets and other various materials.

Relevant Standards

ISO5470-1, ASTM D3884, DIN53863.2

Technical parameters

1. Working plate diameter: $\Phi 115\text{mm}$
2. Working plate speed of revolution: 75r/min
3. Grinding wheel external dimension: diameter $\Phi 50\text{mm}$, thickness 12mm
4. Counting range: $0 \sim 999999$ times
5. Loading pressure: Self-weight of pressing sleeve: 250cN
weight 1: 750cN , weight 2: 250cN , weight 3: 125cN
6. Power source: $\text{AC}220\text{V } 50\text{Hz } 60\text{W}$
7. External dimension: $520 \times 370 \times 360\text{mm}$
8. Weight: 50kg
