

## SKZ184 Fabric Draping Quality Tester

For index test of dynamic, static drape (drape coefficient, liveliness rate, corrugated surface and aesthetic coefficient ).

### Standards

FZ/T01045, BS5058

### Instrument characteristics

- 1.CCD imaging, dynamic and static images processing
- 2.A variety of charts and data statistic, analysis, storage and output
- 3.Without changing black-ground color, specimen in all colors can be tested

### Technical parameters

- 1.Working pattern: computer control, CCD imaging, full-automatic processing of images and data
- 2.Imaging sensor: CCD
- 3.Overhanging factor:0~100%±2
- 4.Vivid ratio:0~100%±2
- 5.Aesthetic factor:0~100%±2
- 6.Stiffiness:0~100%±2
- 7.Waviness of curved surface:±1
- 8.Speed:3~80±1r/min
- 9.Power source:AC220V 50Hz 120W
- 10.External dimension:600×460×1500mm
- 11.Weight:60kg
