

## SKZ1019B Auto Abbe refractometer

To measure refractive index nD and sugar content (Brix) of transparent and translucent liquid

### Features:

1. Full automatically measurement, avoid has human errors
2. Operation convenient, test speed fast
3. Used big screen backlight LCD, in friendly of operation interface Shang directly option operation
4. Sample slot of test hole used hard quality glass, hard to wear
5. Has temperature displayed and temperature automatically amendment (Brix-Tc) function
6. Has test data of store function
7. Has RS232 interface, can to PC transfer data

### Technical parameters:

Refractive index range	1.30000-1.70000 nD
Indication errors	$\pm 0.0002$ nD
Resolution	0.00001 nD
Brix readings range	0-95%
Brix error	$\pm 0.1\%$
Brix resolution	0.1%
Temperature display range	0-50°C
Weight	3KG
Dimensions	329mm×214mm×150mm
