

## SKZ120A Haze Meter

The meter is applicable in transparent, semitransparent parallel level material and plastic film for testing transmittance and haze degree. It is the crucial instrument for plastic and glass.

Using hand to adjust, it is suitable for middle and small enterprise. Confirms to ASTM D1003-61( 1997).

### **Technical parameters:**

1. Sample size: 50mm×50mm
2. C lamp-house
3. Test range: Transmittance: 0-100%; Haze degree: 0-30%
4. Display: LED 3(1/2)
5. Minimum reading: 0.1 %
6. Veracity: transmittance:±1.5%, haze degree: ±0.5%
7. Repetition: transmittance: 0.5%, haze degree: 0.2%
8. Power: AC220V±22V, 50HZ±1HZ
