

## SKZ174 Fabric Down-proof Tester

-- Textile Fabric Penetration Resistance to Feather

To determine the down-proof properties of fabric, rolling box method.

### Standards

GB/T12705

### Technical parameters

1. Interior box dimension: 450×450×450mm
2. Speed: 45r / min; clockwise and anti-clockwise rotation
3. Rotation times: 1 ~ 9999 times
4. Rubber ball: 10balls / box
  - Material: small rubber Cyanide
  - Hardness: 45±10
  - Weight: 140±5g
5. Power source: AC 220V±10% 50Hz 200W
6. External dimension: 850×650×800mm
7. Weight: 60kg
