

SKZ189 Fabric Spray rate Tester

To determine the resistance to surface wetting--spray rating test.

Standards

ISO4920, AATCC22, JIS L1092.

Technical parameters

- 1.Glass funnel: $\Phi 150 \times 150$ (V=500mL)
- 2.Laying angle of specimen: A level perspective of 45°
- 3.The distance between nozzle and center of specimen:150mm
- 4.Sample rack diameter: $\Phi 150$ mm
- 5.Water holding plate dimensions:500×400×30mm
- 6.Supporting metric cup: 500mL
- 7.External dimensions:500×400×500mm
- 8.Weight:5kg
